7.	Section -3 , EQC 2.4.2 2. Vol I Bid Document	BH/WS/01-PACKAGE 02 Construction of pump house 10 Nos, under a single contracts, within the last seven years.	All Tube wells need not necessarily need a pump house above it as multiple pumps located underground within a close vicinity can be controlled from a single Electrical station. Hence, we request you to allow multiple projects to meet this requirement. Please consider and confirm.	1.For BH/WS 01 package 01 Refer S.No 4 of Addendum No 1 2.For BH/WS/ 01 package 02 Refer S.No 5of Addendum No 1 3.For BH/WS 01 package 03 Refer S.No. 5 of Addendum No. 1 No1
8.	Section -3 , EQC 2.4.2 4. Vol I Document	Construction and commissioning of at least 5 Overhead Service Reservoirs of 1 ML to 2.5 ML capacity, under a single contract, within the last seven years.	A contractor carries out construction of various water supply projects at the same time. Under these contracts various components of similar size are built but it is not necessary that all the projects have similar number of components. It is the experience of contractor to build certain number of structures which counts, whether they are under same contract or different should not matter. Hence, we request you to allow multiple contracts to meet this requirement. Please confirm. Also, we understand that OHSR above 2.5 ML shall also be counted for meeting the experience. Please confirm.	1.For BH/WS 01 package 01 Refer S.No 4 of Addendum No 1 2.For BH/WS/ 01 package 02 Refer S.No 5 of Addendum No 1 3.For BH/WS 01 package 03 Refer S.No. 5 of Addendum No. 1 No1
9.			You are well aware first week of Mar-2020, all over the country uncertainties were prevailing on the outcome of Covid-19 and its subsequent effect & actions at various States. Currently entire country is under lockdown conditions since 25 <sup>th</sup> of Mar-2020. Offices are closed, transportations are not available, flights are not operating and under such conditions, it is not possible for us to attend the pre-bid meeting. Therefore, we are now sending this letter to you by e-mail to register our concern over mail.	Noted.
10.			Secondly, we observe time period of completion of each package was too short i.e. one year as laid down in the tender documents. kindly note, these packages are left over portion of the earlier contract, where our preliminary site survey report suggested,	1.For BH/WS 01 package 01 Refer S.No 5, 7,9,11,12,13,and 14, of Addendum No 1 2.For BH/WS/ 01 package 02

			there are many missing link/gaps of pipelines laid by previous contractor and As-built drawings are also not available at site. Hydro-testing was also not done for the laid portions of the pipelines by previous contractor. Under such condition, it would be extremely difficult to complete the project within one year considering current threat of Corona Virus, where we are not sure how long this condition will continue.	Refer S.No 6,9,11,13,14,and 15 of Addendum No 1 3.For BH/WS 01 package 03 Refer S.No6,9,,11,13,14, and 15of Addendum No. 1 4.For BH/WS/01 Package 04 Refer S.No 5,8,10,12,,13, and 14 of Addendum No1
11.			Based on the points raised above, you are requested to provide the details of As-Built drawings for the work already done at site and left over portions with gap closing arrangements like fixing of valves, joints with specials, incomplete portion of hydro-testing on the already laid portion to assess the real ground situations for each package.	Yes. The good for construction (GFC) drawings will be provided by BUIDCo through Design & Construction Supervision Consultants (DSC) after award of work. However the drawings available in PIU, Bhagalpur office and the bidders can visit the Bhagalpur office and can see the drawings.
12.			We further request you to organize detailed site visit along with Departmental officials once the situation becomes normal after complete lockdown is lifted by Central Govt.	Refer clarification at S.No. 2.
13.			Under present circumstances, we could only request to extend the date of submission of the tender of 4 packages one month after lockdown or 30 <sup>th</sup> June-2020, whichever is later.	For BH/WS/01 Package 04 Refer S.No 1 of Addendum No1
14.			Kindly also note, project completion period needs to be increased to minimum two years, otherwise it would be a deterrent factor for many bidders like us to participate in these four packages.	Refer clarification at S.No. 10.
15.			Therefore, it is our earnest appeal to consider our request as mentioned above for the subject tender for all the Packages with revised date of submissions and completion time of 2 (two) years.	Refer clarification at S.No. 10.
16.	Section 3: Evaluation and Qualification Criteria; Clause 2.4.2: Construction and Operation Experience in Key		For items 1, 2 & 3 (Tubewell, Pump House & LT Pump Set respectively) the criteria can be met in one or more than contracts while for items 4 & 5	1.For BH/WS 01 package 01 Refer S.No 4 of Addendum No 1 2.For BH/WS/ 01 package 02

	Activities Vol I of Bid Document		(Overhead Service Reservoirs & Distribution Pipeline respectively) the experience criteria is to be met from a single contract.  This discrepancy in qualification criteria seems to benefit or disadvantage potential bidders. Request you to amend the criteria (2.4.2 Construction and Operation Experience in Key Activities Items 1,2,3,4 & 5) so that the Experience in Key Activities to be fulfilled from either one contract or multiple contracts uniformly.	Refer S.No 5 of Addendum No 1 3.For BH/WS 01 package 03 Refer S.No. 5 of Addendum No. 1 No1
17.	Section 3: Evaluation and Qualification Criteria; Clause 2.4.2 Vol I of Bid Document		Since the duty cycle of LT Pump Set (Item 3) & Capacity of the tower (Item 4 Overhead Service Reservoirs) is specified, request you to also specify the size of tubewell for Item 1.	1.For BH/WS 01 package 01 Refer S.No 4 of Addendum No 1 2.For BH/WS/ 01 package 02 Refer S.No 5 of Addendum No 1 3.For BH/WS 01 package 03 Refer S.No. 5 of Addendum No. 1 No1
18.	Section 3: Evaluation and Qualification Criteria; Clause 2.4.2 Vol I of Bid Document		House Connection is also a significant component of the work with approximately 28000 connections per group. Since experience for activities like LT Pumps & Tubewell is demanded so experience for similar number of house connections should also be demanded.	1.For BH/WS 01 package 01 Refer S.No 4 of Addendum No 1 2.For BH/WS/ 01 package 02 Refer S.No 5 of Addendum No 1 3.For BH/WS 01 package 03 Refer S.No. 5 of Addendum No. 1 No1
19.	Section 3: Evaluation and Qualification Criteria; Clause 2.4.2 Vol I of Bid Document		Since water treatment plant is not to be constructed in these packages the experience of Operation and Maintenance of water supply project without WTP be considered.	Package 04 consists of renovation of WTPs. Hence this experience in Water Treatment Plant Construction is needed. 1.For BH/WS 01 package 01 Refer S.No 4 of Addendum No 1 2.For BH/WS/ 01 package 02
